

How to Run the Age/Sex Registry

The purpose of this is to provide a summary of the number of patients in the practice by age and sex; totaled. For each age/sex category, the total number of contacts and the average number of contacts per patient are listed. The number of contacts is the total number of encounters within the specified lookback period, excluding all encounters with a C, R, or N (cancelled, rescheduled, or no show) appointment status. The Contacts/PT is the number of contacts (encounters) divided by the total number of patients within that age/sex category.

1. Go to the Report module
2. Under Clinical – Main
3. Select Patient by Health Issue / Service

The screenshot shows the MOIS - HALLIWELL MEDICAL CLINIC software interface. The top menu bar includes "Record", "Modules", "Action", "Utilities", "Print", "Maintenance", and "Help". The "Desktop For:" field is set to "HALLIWELL, A.". The left sidebar contains a "Reports" section with a "Report List" folder icon. Below this are icons for "Patient Chart", "Workspace", "Scheduler", "Billing", "Administration", "Data Exchange", and "Reports". The main window displays a "Report List" table with the following items:

Report Name	Report Name
Accounts - General	Accounts - General
Accounts - MSP	Accounts - MSP
Accounts - Private (Inv)	Accounts - Private (Inv)
Accounts - Private (Trans)	Accounts - Private (Trans)
Bills - by Diagnosis	Bills - by Diagnosis
Bills - Fee Code	Bills - Fee Code
Clinical - Audits	Clinical - Audits
Clinical - Main	Clinical - Main
Age/Sex Register	Age / Sex Register
Consult Reason for Dates	Consult Reason for Dates
Documents for Dates	Documents for Dates
Facility Admission for Dates	Facility Admissions for Dates
Imaging for Dates	Imaging for Dates
Interventions for Dates	Interventions for Dates
Labcodes for Dates	Labcodes for Dates
Measure Change Velocity	Measure Change Velocity
Medications for Dates	Medications for Dates

Unresulted Orders	Unresulted Orders
Vaccination for Dates	Vaccination for dates

Parameters:

Report: Clinical - Main - Age/Sex Register

Selection Parameter

Options

As of Date: (a cut-off date for patient status - if blank use today)

Time Period: (number of years from present or as of date, if applicable, since last contact)

Provider(s): Current Desktop All Providers

Patient Status: (comma separated list, BLANK will include ALL - except for TR)
 Include TR patient status

Deficient Items: Direct output to Spreadsheet (CSV)

Ok Cancel

Time Period:	Enter the number of years from present date since the last contact you wish to include
Provider:	Choose to filter for the current/desktop provider OR all providers
Patient Status:	Use the ellipsis to view to list of patient statuses to select from. Check the boxes next to the corresponding status codes.
Deficient Items:	If checked, patients with deficiencies (ie. no date of birth or sex entered) will be sent to an excel file
