

## How to Run the PAP Smear Audit

This report provides an alphabetical listing of female patients (within a specified age range) and the number of years since their most recent pap smear; totaled. It is used to identify patients that need a pap recall, and can be compared against the Recall Report to ensure continued patient care.

1. Go to the Report Module
2. Under Clinical – Audits
3. Select ‘Pap Smear’

The screenshot shows the MOIS - HALLIWELL MEDICAL CLINIC software interface. The 'Report List' menu is open, displaying a list of reports. The 'Clinical - Audits' section is expanded, and 'Pap Smear' is selected. The 'Reports' sidebar on the left contains the following items: Report List, Patient Chart, Workspace, Scheduler, Billing, Administration, Data Exchange, and Reports. The 'Report List' pane shows the following items:
